

The Health Equity and Access under Law (HEAL) for Immigrant Families Act is bicameral legislation that removes cruel and unnecessary barriers to health care for immigrants. It does so by providing access to public and affordable health coverage for DACA recipients while also lifting the current five-year period that lawfully present immigrants — including kids — are required to wait before being able to enroll in Medicaid and the Children’s Health Insurance Program (CHIP). Additionally, the bill removes the current restrictions that prevent undocumented immigrants from purchasing care through the Affordable Care Act (ACA) marketplace. **The bill is endorsed by hundreds of local, state, and national organizations.**
